

# Good Earth Sanitizer & Deodorizer

## WHAT IS IT?

**Good Earth Sanitizer & Deodorizer** is an amazing and effective natural and completely non-toxic substance made with a precise formula of salt, vinegar, water and electricity. It is *hypochlorous acid* (HClO - sometimes called "electrolyzed water"), and it can be found in your own body. Our white blood cells create it as a natural defense against pathogens. It is safe for people, pets and planet. Its pH is between 5.8 and 6.2, making it gentle and non-irritating to skin.

## WHAT MAKES IT AMAZING?

- ✓ Broad Spectrum Disinfectant: Safely eliminates >99.99% pathogens (*mold, mildew, fungus, bacteria, covid & other viruses, MRSA and MORE*)
- ✓ 80x more effective than bleach
- ✓ Used in dentist offices, hospitals and schools
- ✓ Powerful and effective deodorizer
- ✓ Non-toxic, Non-hazardous, Natural, Organic
- ✓ Safe for cleaning food preparation surfaces
- ✓ No discoloration of fabric, carpet, clothing, plastics, etc.
- ✓ No residue
- ✓ Replaces toxic disinfectants: bleach, alcohol, ammonium and others
- ✓ Stable (as long as not exposed to high heat or sunlight)
- ✓ Degrades less than 10% over the course of one year (other HClO products degrade quickly – often within 2 weeks)
- ✓ Completely non-toxic - Becomes a saline solution when it degrades
